Languages

Very good English

Education

FACULTY OF ENGINEERING, ALEXANDRIA UNIVERSITY

B.Sc in Electronics and Communication Engineering | 2015 - 2020 | very good with honor degree

Courses and training

- Web professional track from udacity
- HTML5,CSS3 course from maharatech
- linux administration training from ITI
- embedded system design training from ITI
- embedded system diploma from AMIT
- Introduction to machine learning course from maharatech

Skills

- Proficient in HTML,CSS and javascript
- Good knowledge with node.js and express.js
- Good knowledge with python and Tensorflow
- Strong C programming experience
- Scripting experience with scripting languages such as MATLAB
- Comfortable working and navigating in a Linux environment
- Very Good Deep learning and Computer Vision background.
- Experience with raspberry pi ,Arm and Avr
- A good foundation in Algorithms and Data Structures.
- Knowledge in software design process and development life cycle
- Good knowledge with MIPS and intel microprocessors architecture

Projects

- Weather journal app and portfolio website
- Self driving car using deep learning and computer vision (Graduation project with excellent degree)
- IC tester using 8051 microcontroller
- Smart home using AVR microcontroller
- Implement microcontroller from microprocessor 8088
